

To whom it may concern:

I sincerely hope that the powers that be within the FCC plan on putting a stop to the Sinclair Broadcasting's bias and partisan efforts to add to the ongoing smear campaign aimed at presidential candidate, John F. Kerry.

Clearly, Sinclair's efforts to force their news stations to broadcast this anti-Kerry propaganda is an abuse of the public airwaves. An abuse that, if gone unchecked, will set a dangerous precedent in what consolidated media companies will feel their allowed to get away.

Again, I'm pleading for the FCC to do all it can within it's power to stop this effort being made by Sinclair Broadcasting, to willfully undermine and erode our democratic presidential election process, by abusing the use of the public airwaves.

I sincerely thank you for your time and attention on this matter.
